SKI CANADA MAGAZINE **READER SURVEY**

In April 2013 Ski Canada engaged Impresa Communications to conduct a survey of Ski Canada's readers to discover their skiing characteristics and demographics. The survey was mailed out to a selection of subscribers across Canada in proportion to the circulation of the magazine. Responses have been tabulated and the results follow.

I really enjoy Ski Canada mag and have been a subscriber for several years. I particularly enjoy gear and resort reviews

Ski Canada mag, as long as it stays committed to Cdn content and reviews of Cdn ski hills from coast to coast and doesn't get too elitist, will remain as an important conduit to ski industry for me I really enjoyed the magazine! All articles were fantastic!

CAT/HELISKI ARTICLES

85% FIND THE SKI CANADA TEST REPORTS VERY USEFUL.

Excellent ski tests and buyers quide. Good info on Canadian ski resorts

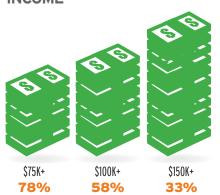

Keep it up! I love this magazine and have been a subscriber for many years!!

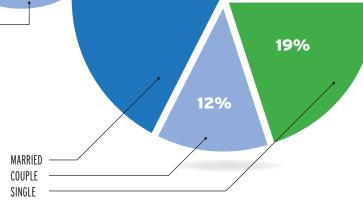

I have relied solely on the results of your ski tests, to base new ski purchases on, without fail, on numerous occasions. They are completely unbiased (I trust they are) and are extremely accurate to base purchase decisions on.

Buyers' guides are good, but we are price influenced since there are 4 of us skiing and costs can get quite ridiculous. Over-all the mag is excellent.

THE CANADIAN ALPINE SKI MARKET

The participation rate in snow sports (downhill ski, snowboard, cross-country) is **12.5% of the Canadian** population age 12 years and older or

ALPINE SKIERS ARE THE TOP INCOME EARNERS IN SPORT HOUSEHOLDS

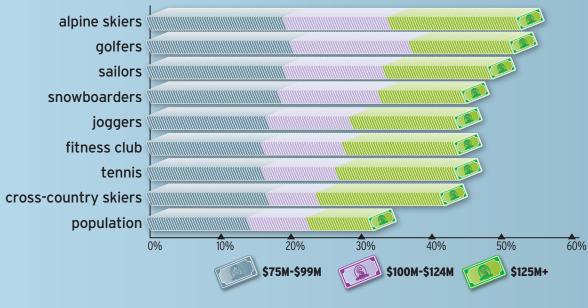

If skiers are measured by spending power, then **Ski Canada**'s readers are an important target for most media plans. Alpine skiers, with golfers, have the highest average annual household incomes of any sport group measured by Print Measurement Bureau (PMB) 2010.

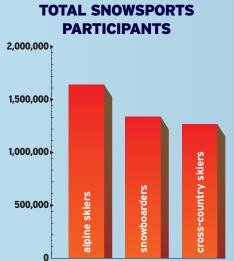

The average annual household income for households participating in alpine skiing is **\$101,849**.

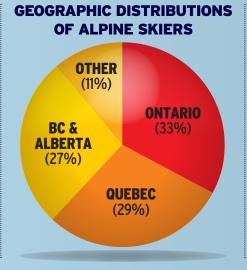

Alpine skiers can afford to buy what they want, and their lifestyle reflects a high level of consumer activity.

Not only are alpine skiers high income earners, the readers of **Ski Canada** magazine exceed the market stats. They ski frequently and travel often in pursuit of their sport, so it is no surprise that their household income exceeds the skier household average.
